

To help your DIY business owners and authors take that first courageous leap, we can frame the introductory step as a "Shining Up Your Big Idea" ritual.

This is designed to be a low-friction "on-ramp" for someone who might feel intimidated by AI but is ready to give their business a PeacePreneuring edge. A #Give2Gain #GivingTuesday Investment from [PM Thomas, Data Sommelier](#) Co-Thinker of [Authenticated Ethical Integrity Agency](#)(AEIA) <https://bit.ly/AEbooks4Good25>

Step 1: Shining Up Your Big Idea

The 5D5G5L Starter Kit for Women-Owned Businesses

Welcome to the [PeacePreneuring Incubator Challenge](#). Before we build the architecture, we begin with the "Shine"—polishing your vision so the AI can see the heart of your mission.

1. Access Your Partner

Go to the official Google Gemini portal. It is free, secure, and ready to collaborate:

- Web: gemini.google.com
- Mobile: Download the Gemini App from the Google Play or Apple App Store.

2. Construct Your PromptCasting Phrase

Copy and paste this "Initialization Key" as your very first message. This tells Gemini to stop being a "generic chatbot" and start being your [5D5G5L Strategic Agent](#).

The Starter Key:

***"Act as my 5D5G5L Strategic Agent for the PeacePreneuring Incubator Challenge. My mission begins on March 8, 2026. I am a woman business owner/author with a 'Big Idea.'**

Help me 'Shine Up' my idea by focusing on service-level personal interaction rather than branding. Ask me three deep questions about the 'Peace-Gap' my business fills and what I am ready to 'Give' so that others may 'Gain.' Let's begin the Discovery phase."* Need Help?

<https://bit.ly/m/Ai4HerHelpDesk>

3. Follow-On Options

Once you've answered those first questions, you can choose your next path:

- **Option A: The 88-Day Calendar**
 - *Say to Gemini:* "Now, map these answers onto our 88-Day Process. What should my focus be for the first 30 days of 'Grace'?"
- **Option B: The Apostle Circle**
 - *Say to Gemini:* "Help me identify 3 people or organizations I can serve deeply to build my Relationship Equity."
- **Option C: The SDK Blueprint**
 - *Say to Gemini:* "Based on our talk, draft a 'System Instruction' I can use to keep our future conversations consistent with my voice."

Why the "Shine" Matters

In the 5D5G5L framework, "Discovery" is the first D. By "Shining Up" your idea first, you ensure that the logic-gated SDK we build later is grounded in your authentic human truth, not a generic business template.

"A big idea only stays big if it's polished by the light of service."
